

RefectoCil Eyelash Lift

36 Applications

For longer and thicker looking lashes in just 13 minutes! The effect lasts 6 weeks.

RefectoCil Eyelash Lift lifts lashes and creates an intense, wide-eyed look. The lift makes your natural lashes look significantly longer and thicker. Unlike RefectoCil Eyelash Curl, where the lashes are given a U-shaped curl, Eyelash Lift lifts the lashes up. The unique formula containing collagen & cysteine works in JUST 13 minutes. The especially developed lifting pads, made in Germany, fit along the curvature of the lid perfectly, are available in 3 sizes, and can be used up to 100 times. You can colour your lashes immediately after the lifting treatment.

Content:

- á 2 Lifting Pads S, M, L
- 2 x Tubes lashperm 3,5 ml
- 2 x Tubes neutralizer 3,5 ml
- 1 x Eyelash Glue 4 ml
- 1 x Eyelash Lifter
- 2 x Mini-cosmetic dishes
- 2 x Cosmetic brushes

Application:

- Remove contact lenses. Clean the eye area with Micellar eye make-up remover and Saline solution.
 - Select the lifting pad size depending on length and desired effect.
 - Apply glue to the back of the lifting pads - allow it to dry. Attach the pad to the eyelid.
 - Apply glue on lifting pad and fix lashes.
 - Apply lashperm – 8 min.
 - Apply neutralizer – 5 min.
 - Tint lashes while they still are on the pad – 2 min.
 - Remove colour and pads with wet cotton.
- Detailed information: see package insert

GROUP DATA SHEET
Permanent waves (alkaline/neutral)

Last modified: 2016-02-04, GWC

1. Identification of the product

Products for the permanent waving of hair. Applied in liquid form, as a cream/gel or mousse, with or without technical devices (e.g. appliances to build foam, heat sources). Often offered in combination packs with neutraliser.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 3 of the EU Cosmetics Regulation). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

3. First aid measures

Measures in the event of

- contact with eyes: rinse thoroughly with plenty of lukewarm water immediately (remove contact lenses immediately); in any case consult a doctor, preferably an ophthalmologist, as a precautionary measure.
- ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one to two glasses of water. Immediately, consult competent Poison Control Centre or doctor.
- contact with skin: immediately wash off with water and soap; skincare. If skin irritation persists, consult doctor.
- Intensive inhalation: remove person affected to fresh air; if discomfort persists, consult Poison Control Centre or doctor.

When consulting a doctor or a Poison Control Centre, always have packaging or label and possibly package insert available.

4. Fire fighting measures

All common extinguishing agents are suitable.

5. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths or mopping up material by controlled disposal. Remove rest with plenty of water and common cleaning agent. Wear suitable protective gloves (see 6.)

Packaging should be recycled after residual emptying. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

6. Handling and storage

Must be used in accordance with manufacturer's instructions; wear gloves (single use gloves in accordance with DIN EN 374 of PVC or nitrile). Observe any warnings on packaging.

Do not mix with oxidising agents such as hydrogen peroxide or bleaches (loss of efficiency). Reseal container after use.

Avoid contact with eyes and facial skin by all means. Only use on unabraded skin.

Store in a cool and dry place (ambient temperature).

7. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available
